PROFESSIONAL SUMMARY

Third-year B.Tech Information Technology student aspiring to secure a Software Developer Internship to contribute to the design, development, and implementation of reliable software solutions. Committed to delivering high-quality applications, addressing complex technical challenges, and contributing to team success.

EDUCATIONS

V.S.B. Engineering College | Tamil Nadu, India — 2024 - 2028
Bachelor of Technology — *CGPA : 8.91*

WORK EXPERIENCES

AI Email Assistant | Internship — Dec 2025 - Feb 2026
Infosys — *Remote • Chennai*

- Developed an email and calendar management platform using FastAPI and 2 Google APIs, Gmail and Calendar.
- Implemented OAuth **2.0** authentication for secure access to email and calendar services.
- Built **10+ REST API** endpoints for email filtering, scheduling, conflict detection, and event management.
- Designed a responsive dashboard with **5+** integrated views for email, calendar, composition, assistant, and settings.
- Official certificate verifying successful completion and achievement. [View Certificate]

Technologies / Skills Used : *Python, REST APIs, FAST APIs, Google Workspace APIs, OAuth 2.0*

PROJECTS

RecuArivu – Recursion Visualizer | Github Website — Aug 2025 - Jan 2026

- Built a React-based Java recursion visualizer with interactive recursion trees, call stacks, and execution tracking.
- Engineered a Java code execution engine to visualize function calls, parameters, and return values in real time.
- Implemented **9+** recursion and backtracking algorithms with execution controls and complexity analysis.
- Reached **100+** students daily and **2100+** visitors, enabling interactive Java DSA learning.

Technologies / Tools Used : *Java, React, JavaScript, Git*

PaadamVazhi - Lecture Notes Platform | Github App Link — Apr 2026 - Sep 2026

- Developed PaadamVazhi using React, TypeScript & HTML5 Canvas for digital classroom teaching.
- Enabled **100+ students** on absence/OD to access missed notes via Google Classroom.
- Automated PDF export & Classroom publishing, reducing manual sharing effort by **~60%**.
- Used daily by IT Department staff, enabling students to access lecture materials anytime.

Technologies / Tools Used : *React, Google Classroom API, jsPDF*

SKILLS

Programming Languages :	Java, Python, SQL, C++, JavaScript
Frameworks & Libraries :	Spring Boot, React
Databases :	MySQL
Tools & Platforms :	Git, GitHub, Linux, Postman, Streamlit
Core Fundamentals :	Object-Oriented Programming (OOPs), Low-Level Design (LLD), Data Structures & Algorithms, Operating Systems, Computer Networks, RESTful APIs

AWARDS & ACHIEVEMENTS

- Solved **1200+** Data Structures and Algorithms problems across LeetCode and GeeksForGeeks. [Link]
- Ranked **1st** in the Institution on GeeksForGeeks through consistent competitive programming. [Link]
- National Semi-Finalist out of thousands of participants in the **Flipkart GRID 7.0** engineering challenge. [Link]
- Secured First place in the Paper Presentation event at **Innovision** 2026 among 50+ competing teams. [Link]
- Top **10** Finalist — iStart Hackathon, among **325+ teams**, organized by TN Startup**.**
- Scored **100/100** in Computer Science in both 11th and 12th grades, demonstrating academic excellence.

CERTIFICATIONS

Data Structures and Algorithms — Microsoft [Link]| Becoming an Agentforce Champion — Salesforce. [Link]
